

EARLS

EARLS are a two-piece “alternative punk” band from the Midlands. Forming in 2015, they have cut their teeth on the Leicester music scene and are now looking to expand their reach after signing to Earwig Records, an independent label, and releasing their debut album ‘Cardboard Palace’ (2019). EARLS are Anthony Lamb on guitar and lead vocals and George Prosser on drums. Their number may be few, but they make more than enough noise. They are a band to look out for in 2019.

GIG REVIEWS

MUSIC IN LEICESTER - "They have got it so right. What they give us is theatre. Musical theatre. It's a level of performance that few others can achieve"

Supporting LIFE @ The Shed, Leicester "It's says something about the songs that after seeing them live only twice I could sing along to about half of their set. I can't catch enough of this band."

TOP 3 SONGS

I'm A Man

A ironic and reflective look on toxic masculinity and the expectations of men in modern society

We Are Skum

The anthem for the working class and the disillusioned youth of Britain. We are skint. We are angry. We are skum.

I Can't Move

A heart-felt and very honest look at depression and dealing with a lost love. Not like anything else the band plays currently so really stands out on the album.
